Active listening, sharing feedback, non-verbal cues

Projects

E-Collection ⧉
A digital e-commerce application that uses APIs to fetch products. I built it with React.js, CSS, and Bootstrap for the frontend.

Todo App ⧉
This is my first project as part of React.js basics from W3Schools. I added local storage for its data input.

Agricultural product management and marketing application ⧉
This is a web application that contains digital marketing and a simple farmer's admin page consisting of an inventory system. I built it with PHP as the backend and HTML, CSS, Bootstrap, and JavaScript as the frontend.

Adventure App ⧉
A responsive website developed with React.js

Software Job Posting Application ⧉
My first Laravel app project is done as practice.

Interests

- Coding
- Repairing electric gadgets
- Learning new things
- Meeting new friends
